To Whom It May Concern,

I am writing to highly recommend William Weimer for an instructional position. During the 2022-2023 academic year, Mr. Weimer completed two internships at South Sumter Middle School, specifically in a 7th grade math course. In the spring semester, his supervising teacher went on maternity leave. I was so confident in Mr. Weimer's instructional skills that I entrusted him to serve as the lead teacher during his internship, a responsibility he handled with exceptional competence and professionalism.

Mr. Weimer consistently collaborated with our instructional coach, engaging in thorough lesson planning and seeking feedback to refine his instructional practices. His commitment to professional growth and willingness to embrace constructive criticism demonstrated his strong work ethic and dedication to the art of teaching. His ability to deliver highly effective, evidence-based instructional practices from bell to bell impressed everyone who had the opportunity to work with him.

One of his significant strengths is his ability to build meaningful and appropriate relationships with students. Mr. Weimer often gave up his lunch period to spend time with students, providing additional support and building rapport. This dedication to student well-being and success speaks volumes about his character and commitment as an educator.

In conclusion, I am confident in my recommendation of Mr. Weimer for an instructional position in your organization. He has shown exceptional instructional skills, a commitment to professional development, and an admirable ability to connect with students. Mr. Weimer would undoubtedly be an asset to any educational institution.

Sincerely,

Melynda Shea
